

Roma International Conference on Astroparticle Physics

Thursday, 26 May 2011

Parallel Session: Low energy astroparticle physics (16:45 - 18:30)

time	[id] title	presenter
16:45	[45] The axion challenge in gamma-rays: a blueprint of the best search strategy	Dr SANCHEZ-CONDE, Miguel A.
17:05	[47] New Solar ${}^7\text{Be}$ rate and day night effect measurements in Borexino	TESTERA, Gemma
17:25	[68] Long duration gamma-ray solar emission during march, 7-8th, 2011 observed by Fermi	Dr GIGLIETTO, Nicola
17:45	[55] Fermi LAT observation of quiet gamma-ray emission from the Sun	Dr BRIGIDA, Monica
18:00	[74] Fermi gamma-ray `bubbles' from stochastic acceleration of electrons	Dr MERTSCH, Philipp
18:15	[84] Fermi's view of the Galactic Center region	Dr CANADAS DEL RIO, Beatriz
