

# Roma International Conference on Astroparticle Physics

## Thursday, May 26, 2011

### Parallel Session: Low energy astroparticle physics (4:45 PM - 6:30 PM)

time	[id] title	presenter
4:45 PM	[45] The axion challenge in gamma-rays: a blueprint of the best search strategy	Dr SANCHEZ-CONDE, Miguel A.
5:05 PM	[47] New Solar 7Be rate and day night effect measurements in Borexino	TESTERA, Gemma
5:25 PM	[68] Long duration gamma-ray solar emission during march, 7-8th, 2011 observed by Fermi	Dr GIGLIETTO, Nicola
5:45 PM	[55] Fermi LAT observation of quiet gamma-ray emission from the Sun	Dr BRIGIDA, Monica
6:00 PM	[74] Fermi gamma-ray `bubbles' from stochastic acceleration of electrons	Dr MERTSCH, Philipp
6:15 PM	[84] Fermi's view of the Galactic Center region	Dr CANADAS DEL RIO, Beatriz
