

Roma International Conference on Astroparticle Physics

Wednesday, May 25, 2011

Parallel session: High Energy Gamma and Neutrino (2:30 PM - 4:15 PM)

time	[id] title	presenter
2:30 PM	[30] "Measurement of the CR light component primary spectrum"	Dr PANICO, Beatrice
2:50 PM	[35] Cosmic-ray anisotropies observed by the ARGO-YBJ experiment	Dr IUPPA, Roberto
3:10 PM	[99] Observation of cosmic rays anisotropy above TeV energies in IceCube	Dr TOSCANO, Simona
3:30 PM	[36] A needlet-based approach to the data analysis in the ARGO-YBJ experiment	Prof. MARINUCCI, Domenico
3:50 PM	[39] UHECR light nuclei and upward Tau airshower	Prof. FARGION, Daniele
