

4th Superconducting Magnet Test Facilities Workshop & 2nd Workshop on Instrumentation and Diagnostics for Superconducting Magnets

Thursday, 27 April 2023

Fiberoptic diagnostics for strain and quench: Fiberoptic diagnostics for strain and quench - Neptune (14:10 - 15:40)

time	[id] title	presenter
14:10	[51] Fiber optic sensing for strain and temperature	Dr BALDINI, Maria
14:30	[50] FBG mesh for distributed strain sensing	KRAVE, Steven
14:50	[53] FBG quench detection sensors	Dr HANEEF, Shahna
15:10	[54] Discussion on fiberoptic techniques
