Laboratori Nazionali di Frascati

Internet access at LNF

An Eduroam Wi-Fi network will be available in the meeting areas. Participants owning a INFN account, may also use the INFNdot1X Wi-Fi network. Participants who are not enabled to join the Eduroam or the INFNdot1X network may apply to access the INFN-WEB Wi-Fi network for visitors, as explained in the following instructions.

WiFi SSID INFN-WEB

Instructions for visitors

(This procedure should be done well in advance, before arriving at LNF).

To access the INFN-WEB network visitors are required to:

1. **register** in the INFN Identity database*: https://signup.app.infn.it/
   - specify Name, Family Name, mail address and choose a password;
   - validate the registration by using the link received by email.

2. **connect** to: https://userportal.app.infn.it/ ** and follow these steps:
   - log-in with the email address and the password entered in the above registration;
   - click on Enabling Requests;
   - click on **IT Resources** and press Next Step;
   - provide the required personal data, necessary to obtain your request;
   - read and accept the information note on the processing of personal data at INFN and press Next Step;
   - choose the site where to carry out your identification: **Laboratori Nazionali di Frascati**, add the message: **WIFI ACCESS "QCM2022"**, and press Next Step;
   - choose the site (as above) and the contact person who will have to approve your request: **Catalina Oana Curceanu**;
   - read and accept the regulation for the use of INFN computing resources and press Next Step;
   - verify the entered data and press Submit.

Access to INFN-WEB network will be available after accreditation at the reception desk.

* If you are already registered in the INFN Identity database skip point 1 and go to point 2
** If you already applied for IT Resources, contact the secretariat to ask for network access
