

Session Program

Jun 26 - 30, 2011

EGAN 2011 Workshop

Ancillaries

Centro Culturale Altinate, Padova, Italy, Sala Polivalente
Via Altinate 71 Padova Italy

Wed, June 29

9:00 AM

Ancillaries

Session | **Location:** Centro Culturale Altinate, Padova, Italy, Sala Polivalente, Via Altinate 71 Padova Italy

9:00 - 9:25 AM

Exploring exotic nuclei via transition probabilities using the plunger technique

Speaker

Alfred Dewald

9:25 - 9:50 AM

Neutron Wall and NEDA: status and perspectives

Speaker

Johan Nyberg

9:50 - 10:15 AM

Gamma ray and recoil coincident measurements , application in lifetime determination of a short-lived nuclear state

Speaker

Piotr Bednarczyk

10:15 - 10:40 AM

New Silicon arrays for reaction studies at future facilities

Speaker

Didier Beaumel

10:40 - 11:05 AM

Planned upgrades of the DIAMANT light charged particle array

Speaker

Barna Mátyás Nyakó

11:05 AM
