

Ricap09 Roma International Conference on Astroparticle Physics

Thursday, 14 May 2009

Nu - Sala Clemente (14:30 - 16:30)

| time | [id] title | presenter |
|-------|---|----------------------|
| 14:30 | [97] Measurement of the cosmic ray energy spectrum and composition with IceCube | KARG, Timo |
| 14:55 | [100] Neutrino propagation in the galactic dark matter halo | LINEROS, Roberto |
| 15:20 | [99] PWN as sources of high energy neutrinos | Prof. GUETTA, Dafne |
| 15:45 | [261] New results on the indirect search for dark matter using the ANTARES neutrino telescope | Dr TONNIS, Christoph |
| 16:05 | [102] Searches for diffuse fluxes of astrophysical neutrinos with the ANTARES telescope | FUSCO, Luigi Antonio |
