

Ricap09 Roma International Conference on Astroparticle Physics

Thursday, 14 May 2009

Nu - Sala Clemente (14:30 - 16:30)

time	[id] title	presenter
14:30	[97] Measurement of the cosmic ray energy spectrum and composition with IceCube	KARG, Timo
14:55	[100] Neutrino propagation in the galactic dark matter halo	LINEROS, Roberto
15:20	[99] PWN as sources of high energy neutrinos	Prof. GUETTA, Dafne
15:45	[261] New results on the indirect search for dark matter using the ANTARES neutrino telescope	Dr TONNIS, Christoph
16:05	[102] Searches for diffuse fluxes of astrophysical neutrinos with the ANTARES telescope	FUSCO, Luigi Antonio
