

Session Program

May 13 - 16, 2009

**Ricap09 Roma International Conference on
Astroparticle Physics**

Nu

Roma

Thu, May 14

2:30 PM

Nu

Session | **Location:** Roma, Sala Clemente

2:30 - 2:55 PM

Measurement of the cosmic ray energy spectrum and composition with IceCube

Speaker

Timo Karg

2:55 - 3:20 PM

Neutrino propagation in the galactic dark matter halo

Speaker

Roberto Lineros

3:20 - 3:45 PM

PWN as sources of high energy neutrinos

Speaker

Prof. Dafne Guetta

3:45 - 4:05 PM

New results on the indirect search for dark matter using the ANTARES neutrino telescope

Speaker

Dr Christoph TONNIS

4:05 - 4:30 PM

Searches for diffuse fluxes of astrophysical neutrinos with the ANTARES telescope

Speaker

Luigi Antonio Fusco

4:30 PM
