

Ricap09 Roma International Conference on Astroparticle Physics

Saturday, 16 May 2009

CR and Gamma - Sala Vittorio Emanuele (09:00 - 11:05)

time	[id] title	presenter
09:00	[235] The PAMELA Experiment: A decade of Cosmic Rays Investigation	MUNINI, Riccardo
09:25	[236] The AMS-02 detector on the International Space Station - Status and highlights, after the first 5 years on orbit	DURANTI, Matteo
09:50	[237] The Fermi Telescope results and Future space based gamma-ray observatories	MCENERY, Julie
10:15	[238] First data from the DAMPE space mission	DE MITRI, Ivan
10:40	[241] High-Energy Emission from Starburst Galaxies	Dr PERSIC, Massimo
