WP2.5

Elvira Rossi

Università Federico II di Napoli

Contributors: INFN, UNIMIB, UNINA, ROMA1, UNITS, UNIBO, UNIPD, UNIFE

➢ Support of the adaptation of existing applications on the data-lake distributed infrastructure, and via innovative computational models

➢ Competence center for the design, implementation and test of computing models

Spoke 2: proposta di aggiunta co-leader lato EPR

Daniele Spiga
co-leader INFN

To do...

- Two e-mail lists:
  - cn1-spoke2-wp5-contacts: WP2.5 coordinators
  - cn1-spoke2-wp5-all: All people interested in contributing to WP2.5 ➔ to registergo to the link https://lists.infn.it/sympa/info/cn1-spoke2-wp5-all

- *Estabilish a second meeting before the kick off:*
  - prepare material for the kick off
  - tentative use cases with the caveat that we need to understand first the needs and requests from other groups
  - to start giving ideas on how to proceed, define a preliminary workflow and start to distribute tasks

- *Set regular meetings (bi-weekly or monthly) to update and be updated on the ongoing work*

- *Set regular interactions with other WPs*

- *Have a strict and regular contact with Industries (if possible)*
