

NePSi 23

Thursday, 16 February 2023

Poster Session and Discussion Session - Sala delle Baleari (17:30 - 20:30)

time	[id] title	presenter
19:00	[112] Topological properties of CP^{N-1} models	MARGARI, Francesca
19:00	[116] Impact of High Scale New Physics on CP Violating and Flavor Changing Quark Dipole Transitions	TAMMARO, Michele
19:00	[117] Lepton number and lepton flavour violation searches in B decays at LHCb	FANTINI, Lisa
19:00	[113] Hadronic contribution to the running of the fine structure constant	MUTZEL, Sophie
19:00	[120] The search for the X17 particle with the MEG-II apparatus	BENMANSOUR, Hicham
19:00	[115] Longitudinal polarization asymmetry of Ξ_b decays with the effect of non-universal Z' boson	BISWAS, SWAGATA
19:00	[119] Multi-Objective Genetic Optimization for the High-Intensity Muon Beams at PSI	DAL MASO, Giovanni
19:00	[121] The μ EDM experiment	VITALI, Bastiano
19:00	[114] Lepton flavour violating $\Sigma_b \rightarrow \Sigma_{1,2}$ decays in Z' model	CHAKRABARTY, RAJESH
19:00	[118] Beam Dynamics Studies for the Muon g-2 experiment at Fermilab	HESS, Emma
