

Final remarks

Elba 2023 – Organizing Committee

Future

- We hope to see you all at the next edition that will be at Marciana Marina in June 2025.
- After the COVID pause, we will keep going with the long tradition started by Omar and Rocco to have our conference every 2 years.
- A big thank you to the participants that make this a truly interesting conference.

Welcome Patrizia to the organizing committee

Dr. Patrizia Rossi is the *Jefferson Lab's deputy associate director for Nuclear Physics,*

*and she was recently appointed managing editor for reviews and letters to the editor (experiment) at *The European Physical Journal A: Hadrons and Nuclei* (EPJA).*

Too many accomplishments to be able to summarize them in one slide so I would not attempt to do it here.

She is a good friend and we truly welcome her to our organizing committee.

Big thank you to Claudia and Lucia

They have done an amazing job to make sure that everything was taken care of and make this a truly nice experience for everybody
