LEAPS Meets Life Sciences Conference

Monday, 15 May 2023

Computational Biology: Block 1 **(11:15 - 12:00)**

time	[id] title	presenter
11:15	[262] Keynote 1: Serial diffraction of macromolecular systems	CHAPMAN, Henry

Computational Biology: Poster talk **(12:15 - 12:30)**

time	[id] title	presenter
12:15	[190] Gatekeepers of Prolyl-4-Hydroxylase 2 and mechanistic studies	FIORINI, Giorgia

Computational Biology: Block 2 **(16:00 - 17:30)**

time	[id] title	presenter
16:00	[265] Tutorial 2: The impact of artificial intelligence (AI) and computer simulations on biomolecular research	SELENT, Jana
17:00	[269] Piz Daint on Alps: a modern day view of extreme computing and data in science	SCHULTHESS, Thomas

Computational Biology: Block 3 **(18:45 - 19:15)**

time	[id] title	presenter
18:45	[232] Toward three-dimensional structure using X-ray free-electron laser	Prof. TAMA, Florence
