Neutrino Telescopes  
Venezia, 23 – 27 October, 2023  
Palazzo Franchetti-Istituto Veneto**

**Sponsor Prospectus**

## **THE EVENT**

The XX International Workshop on Neutrino Telescopes is jointly organized by the National Institute for Nuclear Physics-Padova Unit (INFN-PD) and the Physics and Astronomy Dpt. of Padova University (DFA). It will be held in Venice, Palazzo Franchetti of *Istituto Veneto of Arts, Letter and Science*, from October 23rd to 27<sup>th</sup> 2023.

The conference dates back to 1988 when Prof. Milla Baldo Ceolin conceived it and launched the first edition. It is worldwide considered one of the most prestigious events in the field of particle physics.

It is held every two years and gathers scientists from all over the world to present latest discoveries and current researchers on Neutrinos, Large Detectors for Neutrino, Astrophysics, Neutrino Physics and Cosmology. Topics of the event will include in particular:

*Neutrino Properties*

*Neutrinos in astroparticle physics (experiments)*

*Neutrinos in astroparticle physics (theory)*

*Data Science and Detector R&D*

Furthermore, topics on new technologies and tools crucial for these forefront studies, often specifically customized for such peculiar needs, will be discussed.

Neutrino Workshop is usually attended by more than 150 delegates and stakeholders from all over Europe and oversea and it's the occasion for projects and collaboration groups to present their work, the results of researches and their programs for the future. Nobel Prizes and brilliant researches deeply involved in cutting edge experiments and key actors of current and future science scenarios do always contribute to the conference with highlights and opening talks focusing to the latest must know discoveries and perspectives.
