

Reply to the referee report

Manuscript Number: 152

Title: Quarkonium states in strong magnetic fields

Author: A.V.Koshelkin

The author thanks Editorial Board of Nuovo Cimento for the attention paid to the paper, and the referee for the mentioned typos remarks.

Response to the referee report

1. The misprint has been corrected. The formulas are mentioned by the referee should look as follows

$$E_w = (E_q - m_q^2/2E_q), \quad m_w = m_q^2/2E_q$$

.

This typo did not influence on the derivations and results obtained in the manuscript.

2. The author has rechecked the manuscript again, eliminating typos, and have done some minor corrections to make the manuscript more readable. They concern Eqs.(6), (14), in particularly.

Sincerely yours, Andrew Koshelkin.
