

WPCF - RESONANCE 2023

XVI Workshop on Particle Correlations and Femtoscopy & IV Resonance Workshops Catania (Italy), November 6-10, 2023

The Istituto Nazionale di Fisica Nucleare (INFN), Sezione di Catania (CT) and Laboratori Nazionali del Sud (LNS), the Physics and Astronomy Department “E. Majorana” of the University of Catania and the Technische Universität München (TUM), are pleased to announce the joint organization of WPCF 2023, XVI Workshop on Particle Correlations and Femtoscopy and of the IV Resonance Workshop. The event will be held in Catania (Italy) on November 6-10, 2023.

The meeting is meant to gather nuclear and particle physicists working on particle correlations for *femtoscopy* and *resonance production and decays* in elementary and nucleus-nucleus collisions with stable and radioactive beams. The discussed topics include studies carried out at low, intermediate, relativistic and ultra-relativistic beam energies.

More details on the scientific program are reported on the website of the meeting: <https://agenda.infn.it/event/33324/>.
