

# WPCF 2023 - XVI Workshop on Particle Correlations and Femtoscopy & IV Resonance Workshop 2023

Contribution ID: 91

Type: **Invited**

## Physics and Gender, few open questions

Why physics, which is considered objective and not affected by who is doing the research, teaching and learning, is so dominated by men?

Why do so many groups of people decide not to come to physics, or to leave this field?

How do we make physics or scientific institutions more welcoming and inclusive for a larger part of the population?
