

IV International Workshop on Gravitomagnetism and Large-Scale Rotation Measurement

Contribution ID: 35

Type: **Oral**

Lorentz Violation and Sagnac Gyroscopes

Wednesday, 14 June 2023 17:40 (30 minutes)

This presentation will review the implications of Lorentz Violation for Sagnac gyroscopes using the framework of the Standard-Model Extension.

Presenter: TASSON, Jay (Carleton College)

Session Classification: General Relativity

Track Classification: Fundamental Physics tests: Gravity, Lorentz violation, general relativity, cosmology etc.
