

IV International Workshop on Gravitomagnetism and Large-Scale Rotation Measurement

Wednesday, 14 June 2023

Poster Session: Gyro - Lunch Venue (13:10 - 14:40)

Thursday, 15 June 2023

Poster Session - Lunch venue (12:20 - 14:30)

Friday, 16 June 2023

Poster Session - Lunch venue (12:10 - 14:30)

time	[id] title	presenter
12:10	[37] GINGER analysis pipelines	CASTELLANO, Simone
12:10	[38] Comparison between GNSS and the Gingerino.	DI SOMMA, Giuseppe
12:10	[40] Multi-axis quantum gyroscope with multi loop atomic Sagnac interferometry	GERSEMANN, Matthias
12:10	[42] Fundamental Physics with the Galileo Constellation: the Galileo for Science Project	SAPIO, Feliciana
12:10	[51] Modeling and analysis of Distributed Acoustic Sensing (DAS) data in microseismic monitoring applications.	RAPAGNANI, Giacomo
12:10	[56] Influence of the cavity impedance in a passive resonant laser gyroscope	ZHONG, Yuhong
12:10	[57] Polarization-selective locking scheme in a passive resonant gyroscope	ZHANG, Haobo
12:10	[60] Hollow Core Photonic Crystal Fibers in High-Precision Sensing Applications	PORCELLI, Alessandro
12:10	[74] Light Interferometer for Measurement of the Gravitational Behavior of Antimatter	VINELLI, Giuseppe
12:10	[52] ROMY: On the operation and monitoring of a heterolithic large ring laser array	BROTZER, Andreas
12:10	[30] 6C seismic observations in China	CHEN, Chang WANG, Yun
