- **WG Applications. Setting the rules for approval**

We discussed about a set of rules to process the current and future applications to WGs. We will submit these rules to the MC as e-vote

We arrived at the following proposal:

a) Accept by default the applications by Action Proposers, MC Members, Core Group Members and tenants of Leadership Positions.

b) Limit to 2 the Number of WGs 1-4 to which people can apply. For people who applied to more than 2 WGs ask them to make a choice.

Encourage the applications to transversal WG5 on Dissemination and Outreach.

c) For applications not included in a) ask to the WG leaders to provide to the Core Group their opinion concerning approval/reject of the applications
