

Action Number: CA21106
Room Title: Grant Awarding Coordination
Rapporteur(s): Venelin Kozhuharov
Meeting Participants interested in contributing to the topic: <i>Venelin Kozhuharov</i> <i>Igor Irastorza</i> <i>Maria Benito Castano</i> <i>Calin Lazaroiu</i> <i>Andrea Caputo</i> <i>Servant Cetin</i>
<b>What is our main goal?</b> To develop a procedure for “FAIR” grant awarding.
<b>How can we achieve it?</b> Elect a committee responsible for the rules for grant awarding Prepare a document, describing the rules for grant awarding Ask the proper questions and determine the different groups that we want to support and pay attention: young vs senior researchers ITC countries, work packages fair distribution, Use points system for decision taking on the grants applicants – fully objective or with left-over points for the committee itself Distribute the Grant Awarding Rules as wide as possible
<b>Which resources do we need?</b>  Networking, mainly cloud computing resources (i.e. google drive or similar for the moment) Online meetings Response forms to receive feedback from grant applicants
<b>What are the next steps?</b>  Elect a committee responsible for the rules for grant awarding with high degree of “diversity” - i.e. a representative of each WP, a sufficient amount of young researchers and ITC representatives.
