

# High Precision X-Ray Measurements 2023

## Friday, 23 June 2023

### X-ray in astrophysics - Aula Salvini (09:00 - 11:10)

-Conveners: Alessio Porcelli

time	[id] title	presenter
09:00	[55] The Italian Space Agency: X-ray technologies for astrophysics missions	MILIUCCI, Marco
09:30	[73] The IXPE calibration, from ground to space	FABIANI, Sergio
09:50	[61] The Cryogenic Anticoincidence detector for the new Athena X-IFU instrument: a program overview.	Dr MACCULI, Claudio
10:10	[95] A New Scatterer Detection System for a Compton CubeSat telescope aboard the ComPol project	Mr TOSCANO, Lorenzo Giuseppe
10:30	[78] The multi-detectors system of the PANDORA facility for $\beta$ -decay investigation in astrophysical conditions: focus on the full-field pin-hole CCD system for X-ray imaging and space-resolved spectroscopy	NASELLI, Eugenia
