

WP 5 .1 Diversity & Dissemination

Paolo Giacomelli
INFN Bologna
Task 5.1 Leader

This project has received funding from the European Union's Horizon Europe Research and Innovation programme under Grant Agreement No 101057511.

Diversity:

Within task 5.1 we work to ensure the largest possible diversity of potential users

Engaging people of **Different Nationality**

Gender

The call for users in the different facilities indicates that the funding is proportional to the beamtime allocated and with priority for New users, Young researchers and with limited abilities (some facilities: ISOLDE, Jyväskylä,....)

How many of the facilities allow for reduced Mobility?

• Statistics on Gender →

Globally Women are 39% well above the number of the community and the average age is 42y old.

• to be compared with previous Projects ENSAR2, AIDA, check evolution in a decade

EURO-LABS activities and results will be disseminated using several key communication tools:

Project Public Website

<https://web.infn.it/EURO-LABS/> operative since October 2022 (D 1.2)

- **Intranet and collaboration workspaces**
- **EURO-LABS newsletter to be circulated to project members and to a wider community was given somehow less priority as we include Highlights and News in the web page → Plan to produce the first one before the end of the Year**
- **General Publications: EURO-LABS presentation in CERN Courier: “Research across the borders”**
(<https://cerncourier.com/a/research-across-borders/>)

Publ. Nuclear Physics News 33 (5/7/2023): “EURO-LABS: Europe’s Super Community of Subatomic Researchers (M. Colonna & N. Alahari) <https://doi.org/10.1080/10619127.2023.2198906>

- **Modern media channels, like social media, YouTube **PENDING ?****
- **Project mailing lists**
