

COLLABORATIVE TOOLS - DEVELOPMENT SUPPORT

ALBERTO GIANOLI
INFN FERRARA

WHAT - WHO

- Who? At this time, Ferrara-LBNL-Padova effort: Alberto, Andrea, David, Giuliano, Roberto
- What? Directory service, mailing lists, wiki, digital library, version control/repository

DIRECTORY SERVICE

- simplify authentication/ authorization (support by tools may vary though)
- only one account/ password to access all tools
- ability to delegate part of the registration/ authorization process

DIRECTORY SERVICE

- server up and running in Ferrara
 - few people already in (about 40)
 - right now changing password a bit cumbersome (via ssh login to server)
- ➔ TO DO: administrative interface

TAKE NOTICE

- to use the tools one has to be registered in the LDAP server
- to register, for the time being, email me

WIKI

- mediawiki: LDAP support + TeX plugin
- up and running in Ferrara with LDAP authentication, already in use by simulation people
- anybody registered can modify / add pages
- ➔ TO DO: secure login page; investigate “namespaces” to partition the space

[About SuperBWiki](#)

[Disclaimers](#)

CONTENT MANAGEMENT SYSTEM

- drupal: up and running on a server in Pisa since a long time
- ldap plugin tested on a separate machine
- ➔ TO DO: install the plugin on the real server and check authorizations

MAILING LISTS

- <https://lists.infn.it/> then select “SuperB”
- sympa: already in use. 9 lists so far:
computing, emc, tau phys,...: archive and search support
- please check the lists to verify you are a member of the lists you are interested in
- please register if you have not yet done so
- anybody can create new lists

MAILING LISTS

- integration with LDAP going on
- ➔ TO DO: evaluate functionalities (compare with hypernews); wait for feedback

DIGITAL LIBRARY

- Invenio: Cern product, open source, used also outside Cern
- to be used to archive notes, articles, and all other documents produced by the collaboration
- allows full search based on author, title, abstract, content

Search 0 records for:

any field

[Search Tips](#) :: [Advanced Search](#)

This collection does not contain any document yet.

DIGITAL LIBRARY

- server up and running in Ferrara (passed self tests)
- ➔ TO DO: configure it (not straightforward as we thought); availability will be announced

VERSION CONTROL/ REPOSITORY

- SuperB moved to subversion (from CVS)
- server up and running in Padova (geant4) & LBNL (fast simulation)
- Padova repo integrated with LDAP
- LBNL repo to be moved to Padova asap
- ➔ TO DO: consolidation; package=repository?; development of SRT

SOFTWARE DEVELOPMENT TOOLS

- final goal: software packages released as rpm (both applications and libraries)
- repo in Padova has Geant4 + related packages (SL46, SL51 for 32bit)
- instructions for the use are published on the wiki
- ➔ TO DO: create mailing list for new releases; evaluate package installer tool (no need to be root)
