

HIGGS BOSON'S ... BAR

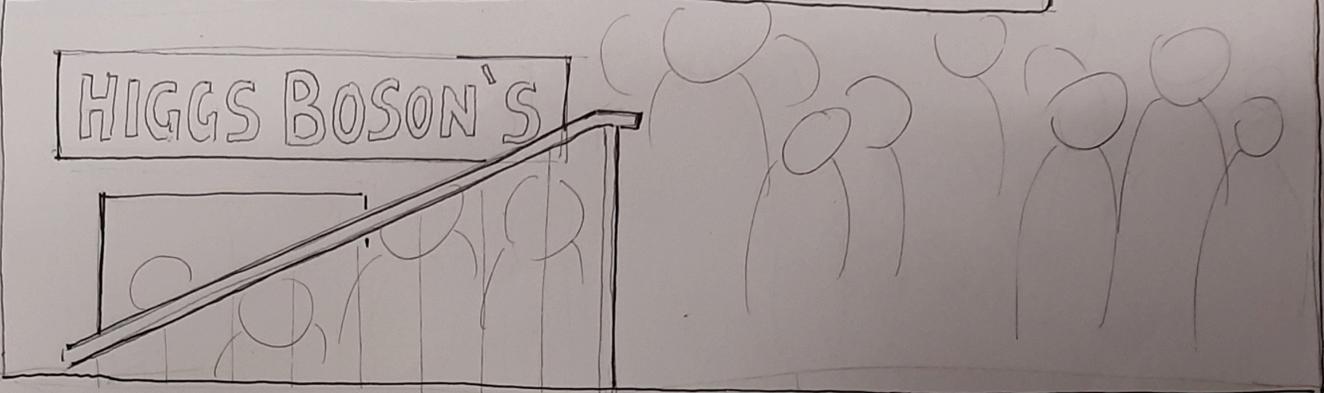

Lavoro svolto da alcuni tra gli studenti vincitori della III edizione del progetto Art&Science Across Italy, durante il master conclusivo al CERN

It was a quiet evening in
PARTICLE CITY...

As always, the most popular bar in the city, was crowded.

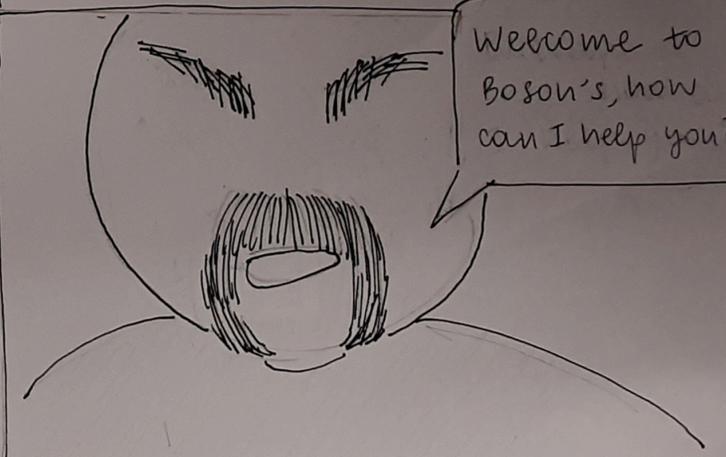

HIGGS BOSON'S

Even though the place was run by...

just ONE particle

Another customer comes in...

Charm quark

I would like a 1,27 GeV

Heavy stuff, sex on the beach it is!

Which gives particles their mass

EXIT

It's as good as they say it is, come in!

Not everybody knows that Boson puts a special ingredients in his DRINKS...

The usual, a 105,7 MeV for me, and a 0,511 MeV for my friend there.

What do you guys want tonight?

Muon

Electron
