

# TNPI2023 - XIX Conference on Theoretical Nuclear Physics in Italy

## mercoledì 11 ottobre 2023

### Hadron Physics (II) - Il Palazzone (14:00 - 16:00)

time	[id] title	presenter
14:00	[8] The EMC effect of light nuclei within the light-front Hamiltonian dynamics	RINALDI, Matteo
14:30	[1] A global fit of unpolarised quark TMD PDFs at N3LL	BOZZI, Giuseppe
15:00	[11] Heavy Barions and new Interacting Boson Fermion Fermion Model results	GARCIA TECOCOATZI, Hugo
15:20	[14] Solving the homogeneous Bethe-Salpeter equation with a quantum annealer	FORNETTI, Filippo
15:40	[48] The $^3\text{He}$ spin-dependent structure functions within the Light-front Hamiltonian Dynamics	PROIETTI, Eleonora
