

**The 13<sup>th</sup> CRIS Conference**

# **CRIS-MAC 2024**

**Multi-messenger Astroparticle Conference**

Trapani - Italy  
June 17 -21, 2024

## **FIRST ANNOUNCEMENT**

---

We are pleased to announce the 13<sup>th</sup> CRIS-MAC Conference to be held in Trapani from 17 to 21 June 2024. It is jointly organized by the Universities of Catania, Napoli and Palermo and by INFN, Catania and Napoli divisions. As in previous CRIS editions, the conference will focus on fundamental topics in astroparticle physics with special emphasis on the multi-messenger studies. For this reason the conference acronym has been changed to CRIS-MAC (Cosmic Ray International Studies and Multi-messenger Astroparticle Conference) while retaining the old CRIS series numbering.

The main focus of the CRIS-MAC conference will be the multi-messenger aspects of astroparticle physics which naturally includes fields such as cosmic-ray physics, gamma-ray and multi-wavelength astronomy, astrophysical neutrinos and gravitational waves.

As in previous editions of the CRIS conference, we expect presentations and informal discussions on all of these topics, on the current status of the various experiments and updated scientific results.

We plan sessions on:

- Astrophysical Neutrinos
- Cosmic Rays
- Gamma-ray and Multi-wavelength Astronomy
- Gravitational Waves
- Experimental Methods, Techniques, and Instrumentation
- Outreach and Education

with specific emphasis on multi-messenger aspects.

For details about the conference, including registration, travel, accommodation information and submission of papers, you are kindly invited to visit the conference website at
