

Compton Sources for X/gamma Rays: Physics and Applications

Wednesday, 10 September 2008

Afternoon (17:00 - 20:30)

time	[id] title	presenter
17:00	[43] Imaging in Radiotherapy	Dr CALANDRINO, riccardo
17:45	[4] Clinical mammography with synchrotron radiation and the new digital development	Dr RIGON, Luigi
18:15	[19] Dependence of edge-enhancement-index on experimental parameters in phase contrast imaging using quasi-monochromatic sources	Dr GOLOSIO, Bruno
18:45	[41] An overview of emerging scientific applications of synchrotron radiation: biomedical imaging, radiation therapy, paleontology and cultural heritage	Dr BRAVIN, Alberto
