

Compton Sources for X/gamma Rays: Physics and Applications

Monday, 8 September 2008

Morning (09:30 - 13:00)

time	[id] title	presenter
09:30	[46] Introductory tutorial	Prof. ROSENZWEIG, James
10:15	[47] Compton source and nuclear photo-science application	Dr SIDERS, Craig
11:00	Coffee Break	
11:30	[45] The Compact Light Source: A Miniature Synchrotron producing x-rays with Inverse Compton Scattering.	Prof. RUTH, Ronald
12:15	[30] The Thomson Source at INFN-LNF and its foreseen applications, as part of the SPARC&PLASMONX National Projects	Dr SERAFINI, Luca
