

# Compton Sources for X/gamma Rays: Physics and Applications

## Monday, 8 September 2008

### Afternoon (17:00 - 19:45)

time	[id] title	presenter
17:00	[35] Experience with synchrotron light source and comparison	Dr COUPRIE, Marie-Emmanuelle
17:45	[22] Theoretical considerations for x-ray phase contrast mammography by Compton source	Dr LAGOMARSINO, Stefano
18:15	[9] Development of Compact Hard X-ray Source via Laser Compton Scattering at AIST	Dr KURODA, Ryunosuke
18:45	[3] Design study of compact Compton X-ray sources for material and life sciences applications	MASLOVA, Yulia
