Public event - Exhibit in Sala Liguria

- We have the pleasure to invite you to visit the photo exhibition in Sala Liguria (on this floor), called “Beyond the Visible: LHC in Images”
- This features shots by Enrico Sacchetti, an internationally award-winning photographer, taken with the aim to “translate abstract concepts into evocative images, capturing the essence of scientific research and making science accessible to a wider audience”
- The exhibit will be publicly accessible from Monday to Friday, from 9 to 19; maybe you’ll meet some tourist interested in joining the HEP community!

Things to do in Genova city centre and surroundings

- Plenty of restaurants and bars in the historic centre or Porto Antico and nearby areas
- You have a city map with some tourism directions in your welcome kit
- Check out [visitgenoa.it](https://www.visitgenoa.it) and download the free app *Visit Genoa*
- The city centre is mostly a pedestrian area and it is huge; worth to explore and please ask for tips on things you cannot miss

- *Vicoli* are charming but also require some level of alertness... at night, don't get lost and don't take your laptop out!

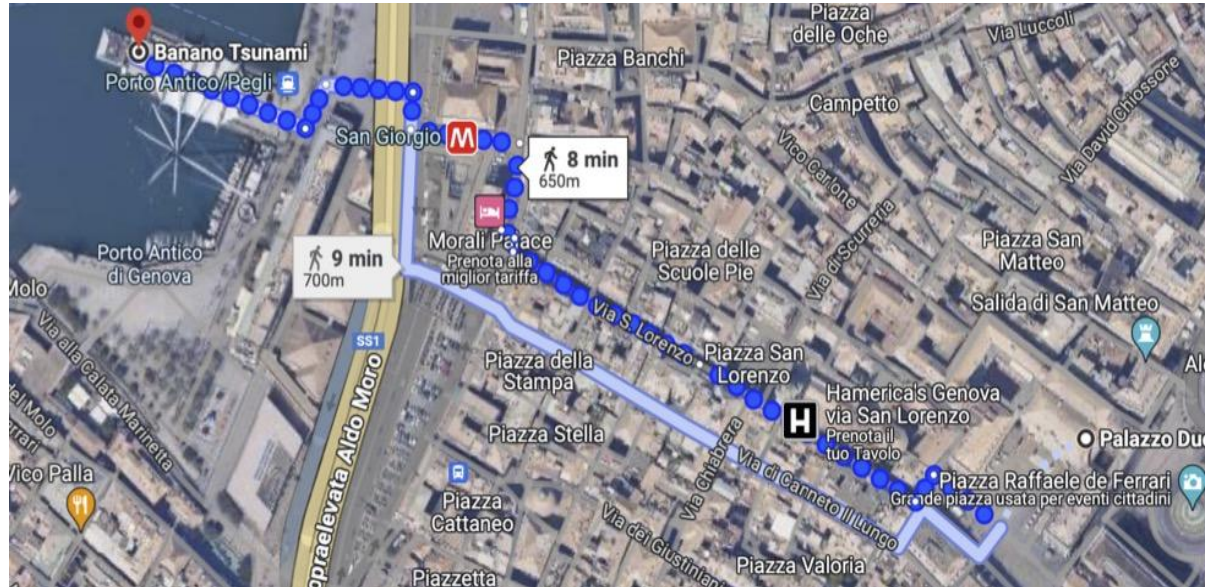

Public transportation in Genova

- When using buses, metro, cable-carts and lifts, a good option is to buy tickets in advance at newsagents or vending machines (e.g. at metro stations)
- More details on the [AMT website](#) (italian only, sorry), but the main options are [single tickets](#) (2 euro / 110') or [weekly passes](#) (22 euro)
- Some bus stops (e.g. Piazza De Ferrari) are equipped with contactless option, called ILA (Instant Lane Access)
- You can also download the *AMT Genova* app, which can be used to monitor transits and buy tickets via phone (Biglietti→Biglietto via SMS) or Credit Card (Biglietti→Biglietto con carta di credito)
