ET Introduction Mock Data Challenge

Tuesday, 20 February 2024 17:20 (1h 20m)

MDC hands on: The lecture will highlight the procedure for accessing the Einstein Telescope Mock Data Challenge (MDC). It will cover fundamental signal processing techniques applied to noise data and provide insights into the detection of astrophysical signals.

Software requirement: code and data in a web browser, but we need to request the AAI credentials for all the students to ESCAPE VRE team.

Presenter: CUOCO, Elena
