

# Present and future perspectives in Hadron Physics

## Tuesday, June 18, 2024

### Invited talks (4:50 PM - 6:20 PM)

-Conveners: Boris Hippolyte

time	[id] title	presenter
4:50 PM	[30] What can we learn from Gravitational Wave Signals concerning the nuclear equation of state	REZZOLLA, Luciano
5:20 PM	[18] Recent advances in instrumentation R&D and their impact on future projects	CONTARDO, Didier
6:00 PM	[19] Strangeness measurements in hadronic collisions at LHC with links to expectations at EIC and future programs	DOBRIGKEIT CHINELLATO, David
