

# Present and future perspectives in Hadron Physics

## Tuesday, 18 June 2024

### Invited talks (16:50 - 18:20)

-Conveners: Boris Hippolyte

time	[id] title	presenter
16:50	[30] What can we learn from Gravitational Wave Signals concerning the nuclear equation of state	REZZOLLA, Luciano
17:20	[18] Recent advances in instrumentation R&D and their impact on future projects	CONTARDO, Didier
18:00	[19] Strangeness measurements in hadronic collisions at LHC with links to expectations at EIC and future programs	DOBRIGKEIT CHINELLATO, David
