

CYGNO Collaboration Meeting 2023

Monday, 4 December 2023 - Wednesday, 6 December 2023

Laboratori Nazionali di Frascati

Book of Abstracts

Contents

Welcome from the INFN-Frascati National Laboratories	1
MeV-GeV direct detection overview	1
Light Dark Matter detection	1
Panorama of low dark mass experimental status and plans	1
Status of CYGNO project	1
Discussion - All	1
Analysis summary of ^{55}Fe runs	1
Review on the enhancement of light yield with the addition of a strong electric field below the last GEM	2
Overview of the studies on He-CF ₄ mixtures with hydrocarbon additives performed during the past year in Coimbra	2
Negative Ions operation	2
Response linearity and natural background studies	2
Summary and plans of LIME operations	2
LIME activities plan	2
Simulation of background in LIME	2
PMT simulation	3
Summary of detector response simulation	3
PMT signal studies	3
The CYGNO 04 project	3
Background simulation for CYGNO04 detector	3
Results from the radioactivity scrutiny	3
Status and plans of the middleware	3
Gas purification studies	4

Computing infrastructure	4
Discussion on the measurements of QF	4
Design and development of trigger-less trigger for CYGNO Data Acquisition System	4
Feasibility of a directional solar neutrino measurement with the CYGNO experiment	4
MANGO-COMIMAC integration	4
Conclusion and goodbye	5
Panorama of low dark mass experimental status and plan	5
Status of CYGNO project	5
Discussion - All	5
Rejecting electron background using machine learning algorithms	5
Results and plans on the radioactivity of the optical system	5
Status of light DM search	5
NID results after latest discussion	5
Status and plans for the search of Migdal effect	6
Status and plans for the study of X-ray polarimetry	6
News from Pubblicaton Committee	6
News from the Steering Committee	6
Discussion - All	6
Status of the reconstruction code	6
Workflow for reco, data monitoring and processing	7
Stability and daily calibrations	7
Study of the pedestal stability	7
Summary un Run3 analysis	7
Results from 241-Am runs	7
Results from Ba and Eu runs	7
Results from PMT analysis	7
Low energy electron / nuclear recoils discrimination	8
Results from the low VGEM1 runs	8
Status of Monte Carlo and digitization code	8
Comparison with low energy X rays sources	8

PMT simulation	8
Status of the Monte Carlo - Data comparison	8
Discussion - All	8
Status of designs and infrastructure	9
Status of the test of GEM and frames	9
Status of material scrutiny work	9
Results from GIN tests	9
Status and plans of the gas system	9
Status and plans of the DAQ system	9
Discussion - All	9
Status and plans of the optics	10
Plans for LIME data tacking	10
Feasibility of solar neutrino spectroscopy with CYGNO-30	10

General Overview and Synergic Activities / 9

Welcome from the INFN-Frascati National Laboratories

Corresponding Author: fabio.bossi@lnf.infn.it

General Overview and Synergic Activities / 10

MeV-GeV direct detection overview

Corresponding Author: giovanni.grillidicortona@lnf.infn.it

General Overview and Synergic Activities / 11

Light Dark Matter detection

Corresponding Author: angelo.esposito@roma1.infn.it

General Overview and Synergic Activities / 12

Panorama of low dark mass experimental status and plans

Corresponding Author: elisabetta.baracchini@lnf.infn.it

General Overview and Synergic Activities / 13

Status of CYGNO project

Corresponding Author: davide.pinci@roma1.infn.it

General Overview and Synergic Activities / 14

Discussion - All

LIME Overground and R&D / 15

Analysis summary of ^{55}Fe runs

Corresponding Authors: ritaroque7@gmail.com, ritaroque@gian.fis.uc.pt

LIME Overground and R&D / 16

Review on the enhancement of light yield with the addition of a strong electric field below the last GEM

Corresponding Author: dho@lnf.infn.it

LIME Overground and R&D / 17

Overview of the studies on He-CF₄ mixtures with hydrocarbon additives performed during the past year in Coimbra

Corresponding Authors: rdpmano@uc.pt, ritaroque@gian.fis.uc.pt

LIME Overground and R&D / 18

Negative Ions operation

Corresponding Author: elisabetta.baracchini@lnf.infn.it

LIME Overground and R&D / 19

Response linearity and natural background studies

Corresponding Author: emanuele.dimarco@roma1.infn.it

LIME Underground / 20

Summary and plans of LIME operations

Corresponding Author: stefano.piacentini@roma1.infn.it

LIME Underground / 21

LIME activities plan

Corresponding Author: giovanni.mazzitelli@lnf.infn.it

LIME Underground / 22

Simulation of background in LIME

Corresponding Author: digiambattista.flaminia@gmail.com

LIME Underground / 23

PMT simulation

Corresponding Authors: rafael.nobrega@roma1.infn.it, ranobr@gmail.com

LIME Underground / 24

Summary of detector response simulation

Corresponding Author: fabrizio.petrucchi@roma3.infn.it

LIME Underground / 25

PMT signal studies

Corresponding Author: francesco.borra@roma1.infn.it

CYGNO 04 / 26

The CYGNO 04 project

Corresponding Author: giovanni.mazzitelli@lnf.infn.it

CYGNO 04 / 27

Background simulation for CYGNO04 detector

Corresponding Author: giulia.dimperio@roma1.infn.it

CYGNO 04 / 28

Results from the radioactivity scrutiny

Corresponding Author: anna.calanca@lnf.infn.it

CYGNO 04 / 29

Status and plans of the middleware

Corresponding Author: igor.abrittacosta@lnf.infn.it

CYGNO 04 / 30

Gas purification studies

Corresponding Author: robert.gregorio@sheffield.ac.uk

General / 31

Computing infrastructure

Corresponding Author: giovanni.mazzitelli@lnf.infn.it

General / 32

Discussion on the measurements of QF

Corresponding Author: digiambattista.flaminia@gmail.com

General / 33

Design and development of trigger-less trigger for CYGNO Data Acquisition System

Corresponding Author: igor.pains@engenharia.ujf.br

General / 34

Feasibility of a directional solar neutrino measurement with the CYGNO experiment

Corresponding Author: samuele.torelli@roma1.infn.it

General / 35

MANGO-COMIMAC integration

Corresponding Author: david.marques@gssi.it

General / 36

Conclusion and goodbye

General overview / 37

Panorama of low dark mass experimental status and plan

Corresponding Author: elisabetta.baracchini@lnf.infn.it

General overview / 38

Status of CYGNO project

Corresponding Author: davide.pinci@roma1.infn.it

General overview / 39

Discussion - All

LIME Underground / 40

Rejecting electron background using machine learning algorithms

Corresponding Author: atul.prajapati@gssi.it

CYGNO 04 / 41

Results and plans on the radioactivity of the optical system

Corresponding Author: francesco.renga@roma1.infn.it

General Overview and Synergic Activities / 42

Status of light DM search

Corresponding Author: elisabetta.baracchini@lnf.infn.it

General Overview and Synergic Activities / 43

NID results after latest discussion

Corresponding Author: elisabetta.baracchini@lnf.infn.it

General Overview and Synergic Activities / 44

Status and plans for the search of Migdal effect

Corresponding Author: melba.d-astolfo@roma1.infn.it

General Overview and Synergic Activities / 45

Status and plans for the study of X-ray polarimetry

Corresponding Author: davide.fiorina@gssi.it

General overview / 46

News from Publicaton Committee

Corresponding Author: fabrizio.petrucchi@roma3.infn.it

General overview / 47

News from the Steering Committee

Corresponding Author: fabrizio.petrucchi@roma3.infn.it

General overview / 48

Discussion - All

Ongoing Analyses / 49

Status of the reconstruction code

Corresponding Author: dho@lnf.infn.it

Ongoing Analyses / 50

Workflow for reco, data monitoring and processing

Corresponding Author: igor.abrittacosta@lnf.infn.it

Ongoing Analyses / 51

Stability and daily calibrations

Corresponding Author: rita.antonietti@roma3.infn.it

Ongoing Analyses / 52

Study of the pedestal stability

Corresponding Author: davide.fiorina@gssi.it

Ongoing Analyses / 53

Summary un Run3 analysis

Corresponding Author: rdpmano@uc.pt

Ongoing Analyses / 54

Results from 241-Am runs

Author: Davide Pinci¹

¹ *Istituto Nazionale di Fisica Nucleare*

Corresponding Author: davide.pinci@roma1.infn.it

Ongoing Analyses / 55

Results from Ba and Eu runs

Corresponding Author: samuele.torelli@roma1.infn.it

Ongoing Analyses / 56

Results from PMT analysis

Corresponding Author: david.marques@gssi.it

Ongoing Analyses / 57

Low energy electron / nuclear recoils discrimination

Corresponding Author: atul.prajapati@gssi.it

Ongoing Analyses / 58

Results from the low VGEM1 runs

Corresponding Author: ranobr@gmail.com

Ongoing Simulations / 59

Status of Monte Carlo and digitization code

Corresponding Author: pietro.meloni@uniroma3.it

Ongoing Simulations / 60

Comparison with low energy X rays sources

Corresponding Author: pietro.meloni@uniroma3.it

Ongoing Simulations / 61

PMT simulation

Corresponding Author: ranobr@gmail.com

Ongoing Simulations / 62

Status of the Monte Carlo - Data comparison

Corresponding Author: digiambattista.flaminia@gmail.com

Ongoing Simulations / 63

Discussion - All

CYGNO 04 / 64

Status of designs and infrastructure

Corresponding Author: giovanni.mazzitelli@lnf.infn.it

CYGNO 04 / 65

Status of the test of GEM and frames

Corresponding Author: luigi.benussi@lnf.infn.it

CYGNO 04 / 66

Status of material scrutiny work

Corresponding Author: kemp@unicamp.br

CYGNO 04 / 67

Results from GIN tests

Corresponding Author: alex.biondi@lnf.infn.it

CYGNO 04 / 68

Status and plans of the gas system

Corresponding Author: francesco.renga@roma1.infn.it

CYGNO 04 / 69

Status and plans of the DAQ system

Corresponding Author: stefano.piacentini@roma1.infn.it

CYGNO 04 / 70

Discussion - All

CYGNO 04 / 71

Status and plans of the optics

Corresponding Author: davide.pinci@roma1.infn.it

Ongoing Analyses / 72

Plans for LIME data tacking

Corresponding Author: stefano.piacentini@roma1.infn.it

General Overview and Synergic Activities / 73

Feasibility of solar neutrino spectroscopy with CYGNO-30

Corresponding Author: samuele.torelli@roma1.infn.it
