

# Turin Lattice Meeting 2023

## Thursday, 21 December 2023

### Phenomenology - Aula Magna (16:30 - 18:00)

time	[id] title	presenter
16:30	[10] Hadronic vacuum polarization from lattice QCD(+QED) with C* boundary conditions	PARATO, Letizia
17:00	[14] The quenched glueball spectrum from smeared spectral densities	SMECCA, Antonio
17:30	[16] Theoretical aspects on the prediction of spectral densities from Lattice QCD	BRUNO, Mattia
