To do list on Simulation:
- First step is to cross-checked the full simulation in Geant4 and Alexei simulation (1,2,3 mm) -> Fahad and Gianfranco
- Second step: try to combine Geant4 positron production code and the capture code from IJCLab -> Fahad and Gianfranco
- Third step: play with parameters and make a systematic analysis -> Daniele (Naple), Nicola (Ferrara) (immediately you can already start play)

Regular meeting (bi-weekly): Gianfranco coordinator
Fahad, Nicola, Daniele, Orso, Giorgio
Mailing list:
giorgio.zuccala99@gmail.com
canale@fe.infn.it
alharthi@ijclab.in2p3.fr
danboccanfuso@gmail.com
oiorio@na.infn.it

- During the first meeting create repository for the codes
- Gianfranco will send a Doodle to fix the 1h bi-weekly meeting schedule
