On board you will have the possibility to admire the monuments and the buildings that marked the history of the city between the 15th and the 20th centuries but in a very original and evocative way.

We are going to see two of the main ancient gates of Padova: Porta Portello, dating back to the Renaissance, and Porta Molino, dating back to the Middle Ages, as well as the old bridges: Ponte delle Grate del Carmine, Ponte Molino, Ponte San Leonardo.
