Production and Manipulation of RIB (09:00 - 11:00)

time	[id] title	presenter
09:00	[128] Charge breeding of Radioactive Ion Beams: status and perspectives	DELAHAYE, Pierre
09:30	[125] Heavy ion induced degradation of carbon materials	TOMUT, Marilena
10:00	[11] Recent results on R&D of the SPES production target	ANDRIGHETTO, Alberto
10:20	[81] Uranium Carbide Target Material Development for the Production of Exotic Radioisotopes at ISOLDE-CERN	Dr GOTTBURG, Alexander
10:40	[98] Production of radioactive ion beams at ISOLDE with the dual dye and titanium:sapphire RILIS	Dr MARSH, Bruce
