Padova, 31 January 2024

Dear Friends,

We are writing in connection with the every-two-year informal meeting on “Selected Topics in Nuclear and Atomic Physics”, traditionally held in Fiera di Primiero, in the Italian Dolomites. The nineteenth edition is planned from October 4th to October 8th, 2024.

The meeting is traditionally based on a series of lectures on different subjects. The expected speakers of this edition are:

- Ronald F. Garcia Ruiz (MIT, USA)
- Andreas Ekstrom (Chalmers University, Sweden)
- Giuliano Giacalone (University of Heidelberg, Germany)
- Antonio Moro (University of Seville, Spain) -- TBC
- Benjamin P. Kay (Argonne National Laboratory, USA)

The regular lectures may be supplemented, as in previous occasions, by seminars on topics of general interest.

All participants will be hosted at the Conca Verde Hotel. All participants are invited to reach Fiera during Thursday, 03rd and the hotel will be available until Wednesday morning. The total cost of participation, including full pension, is 500,00 Euro. The dinner of Wednesday the 03rd and the breakfast of Wednesday the 9th are included. Details on the payment of the fee will be soon available on the website of the meeting: <https://agenda.infn.it/e/Fiera2024>.

As you well know this is a small gathering, run at a minimum budget. Because in Fiera di Primiero we must deal with a commercial hotel for everybody's accommodations, it is crucial to have an accurate view of how many will actually come. So if you, or some in your group, is interested in coming, please inform by e-mail Paola Zenere (paola.zenere@pd.infn.it), who will act as Secretary of the meeting. If necessary, some supports for the accommodation of young people can be provided.

Best regards,

Carlos H. Dasso, Edoardo G. Lanza, Daniele Mengoni and Andrea Vitturi
