The ICSC Activities under Spoke 2: "Fundamental Research and Space Economy"

Monday, 20 May 2024 17:40 (15 minutes)

One on the vertical spokes in the "National Center for HPC, Big Data and Quantum Computing", funded under the NRRP initiative with 320 MEur, focuses on activities which are aligned with INFN core missions: the Spoke2, "Fundamental Research and Space Economy".

In the talk, we will illustrate the large number of ongoing activities, their interest for INFN experiments and for the ICT Infrastructure.
