

Thursday, February 6, 2025, 14:00-17:00
Conference Hall: SALA TERME, Via Stelvio, 14 Bormio

PARIS Collaboration Meeting - Open Session
“Future of PARIS – LNL Legnaro and beyond”

1. Status of PARIS – A. Maj 20’
2. Physics cases for AGATA+PARIS@LNL – F. Camera 20’
3. Mechanical Coupling to AGATA in LNL – I. Matea 15’
4. Electronics and DAQ – S. Brambilla 15’
5. Investigation of a high spin structure in the vicinity of ^{44}Ti via discrete and continuum gamma spectroscopy with AGATA and PARIS. – P. Bednarczyk 15’
6. New PARIS projects at CCB Krakow and PARIS polarisation capabilities – M. Ciemala 15’
7. Opportunities for PARIS in GANIL/SPIRAL2 – M. Lewitowicz 15’
8. Opportunities for PARIS in IJCLab Orsay – J. Wilson 15’
9. Opportunities for PARIS in India – V. Nanal 15’
10. Perspectives of the PARIS project at the Heavy Ion Laboratory in Warsaw– K. Hadyńska-Klęk 15’
11. Open Discussion – all 20’
