

CYGNO, 06/06/24

News

- RUN5 is going on without major issues;
- We are working to a better organization of the data taking scheme and shifts (slides from Stefano) and updating the perspectives for the neutron flux evaluation (slides from Elisabetta);
- CYGNO-04 studies and drawings are proceeding (slides from Giovanni) and we should start the material purchases asap;
- Our financial plan was approved by INFN for 2023 and 2024;
- The funding of 2025-2027 should be rediscussed after all the work on LIME and the updated version of the TDR (that was already presented);
- On the **27th of June** we'll meet the **INFN-referees** to discuss the current status of CYGNO and the financial plans for the next years;
