

LLRF Topical Workshop - Timing, Synchronization, Measurements and Calibration

Monday, 28 October 2024

Poster Session I (Synchronization and Timing) (16:55 - 18:55)

time	[id] title	presenter
16:55	[48] Coherent Electron Cooling (CeC) - Timing and Synchronization	MAI, Samson
16:55	[21] The CEBAF Accelerator MO System Upgrade	PLAWSKI, Tomasz
16:55	[52] Characterization and Improvement of Phase Noise in the RHIC 197 MHz RF System	MCCOOEY, Michael
16:55	[31] Novel phase-averaging reference system for the CiADS facility	DING, Xinghao
16:55	[39] Picosecond Timing System Based on White Rabbit for Scientific Facilities	BENAVIDES CARO, Javier FERNÁNDEZ PRAT, Juan Salvador
16:55	[57] Recent Experience in the Operation of FLASH2020+ RF Reference Generation System	URBANSKI, Maciej
16:55	[42] Beam Synchronous for the Rest of Us!	MILTON, Evan
16:55	[54] PIP-II Clock and Timing	AUSTIN, Mark
16:55	[23] LINAC Locking Commissioning and Operation for the Phase Reference Line Synchronization between LCLS-I and LCLS-II at SLAC*	HONG, Bo
16:55	[30] RF Phase Reference Distribution System for RAON Heavy-ion Accelerator	SEOL, Kyungtae
16:55	[37] HL-LHC RF distribution over White-Rabbit, the WR2RF and eRTM modules	HAGMANN, Gregoire
16:55	[46] Control & Monitoring Software for Fibre Optic Link Stabilization	Mr STERLING, Patrick
16:55	[59] Report on the Development of a Real-time Redundancy Subsystem for the Master Oscillator of the European XFEL	GAŚOWSKI, Bartosz
