

Discussione deroghe percentuali - richieste da Bologna

ANTONIOLI PIETRO: 50% ALICE, eccezione richiesta per tre anni per sinergia EPIC

- long-lasting and full-blown participation in the design, assembly, commissioning and “life” of ALICE. Pietro will still hold the role of **responsible for the TOF readout and front-end electronics**, as well as responsible and main leader of the development of the TRM2 TOF readout board (for which we requested and obtained significant funding from the INFN) and of the picoTDC Board that we are using for the readout of silicon sensors (CMOS-LGADs and SiPMs) in the beam tests for ALICE 3.

PREGHENELLA ROBERTO: 50% ALICE, eccezione richiesta per tre anni per sinergia EPIC

- long-lasting and full-blown participation in the design, assembly, commissioning and “life” of ALICE. Roberto will still hold the role of **responsible of the TOF preprocessor and decoder**.

RUBINI NICOLA: 50% ALICE, eccezione richiesta per 2 anni per sinergia EPIC

- Nicola is an early-career member of the ALICE collaboration and an active analyser within PWG-LF. The results of his PhD analysis are in the publication process and he acts as the **chair of the Paper Committee**. Nicola is also contributing as ARC member of other analyses and will continue his contribution within the WG. Besides physics analysis, he actively contributes to the TOF activities and the ALICE data-taking and was **Juniors Representative** in the **Collaboration Service Work Board**. He currently holds a post-doc position linked to R&D activities for the ePIC experiment at the EIC, which requires a larger FTE participation. Nonetheless his participation and commitments to the ALICE experiment will be fulfilled.
