

Vulcano Workshop 2012

Saturday, 2 June 2012

Direction for Next Generation Experiments (09:25 - 12:25)

time	[id] title	presenter
09:40	[78] The ASTRO-H Mission	YOSHIMOTO, Maeda
09:55	[79] LOFT (Large Observatory For X-ray Timing)	STELLA, Luigi
10:10	[80] Large Area Scintillation Muon Hodoscope	YASHIN, Igor
10:25	[81] The JEM- EUSO mission	GALEOTTI, Piero
10:40	[82] NA62 Experiment	ANTONELLI, Antonella
10:55	coffee break	
11:25	[83] LAGEOS (LAsEr GEOdynamics Satellites): Constraining spacetime torsion	BELLETTINI, Giovanni
11:40	[84] MoonLIGHT: a new Lunar Laser Ranging Retroreflector instrument	GARATTINI, Marco
11:55	[85] AERA - The Auger Engineering Radio Array	WEIDENHAUPT, Klaus
12:10	[86] A Computer Cluster System efficiently supporting the Pseudo-Parallel execution of Geant4 serial application	MARTINO, Bruno FEDERICI, Memmo
