

# ACCELERATING RESEARCH AND TRAINING

## EuPRAXIA-DN Camp I Technologies

The EuPRAXIA Camps are open to everyone interested in the latest R&D results in plasma accelerators and not limited to members of EuPRAXIA. Participants are asked to suggest their contribution during registration and indicate if they would like to contribute a talk or a poster.

Generous discussion time will be included in each session and there will also be more general discussions at the end of each day linking between different areas. A poster session will complement the challenge-focused program.

**TOPIC:** This first-ever EuPRAXIA Camp will cover laser and plasma technology, and connect the latest R&D results in these areas with the challenges related to their integration into a plasma accelerator-based research infrastructure.

**VENUE:** CNR-INO, Pisa, Italy

**DATE:** 7 – 8 April 2025

**REGISTRATION DEADLINE:** 28 February 2025

**STANDARD FEE:** £250 / £150 (students)

(The fee includes access to all workshop sessions, coffee breaks and lunches, welcome reception on Sunday, and a dinner on Monday.)
