

15th annual conference on Relativistic Quantum Information

(North)

Friday, 27 June 2025

Friday Plenary Session: Block 1 (09:15 - 10:55)

time	[id] title	presenter
09:15	[202] Quantum Position Verification, Quantum Nonlocal Computation, and Surprising Connections with Holography and classical cryptography	BUHRMAN, Harry
09:55	[203] What Makes an Observable? Invariance Under Quantum vs. Classical Reference Frames	BRUKNER, Āaslav
10:25	[204] Generalizing Noether: the metric from energy-momentum non-conservation	KEMPF, Achim

Friday Plenary Session: Block 2 (11:30 - 12:50)

time	[id] title	presenter
11:30	[205] Checkpoints on the road to Quantum Gravity -- Semiclassical insights, Thermodynamics, Entanglement, and Probes within RQI	SINGH, Suprit
12:10	[206] Monogamy relations for relativistically causal correlations	WEILENMANN, Mirjam
