

A first look at your response
to the questionnaire

How effective was the school in achieving the following advertised goals:

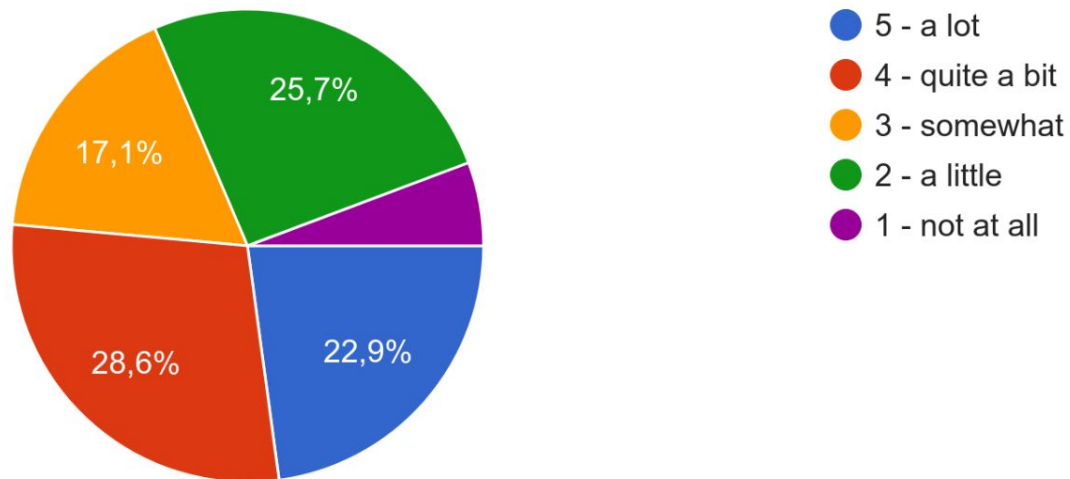

1. provide a unique opportunity for all the students to meet, interact, exchange ideas and experiences ?
2. familiarize students with the environment of the research institutions where the activities take place.
3. better understand the fundamental motivations of the research work they participate in?
4. explore the main directions in which frontier technologies are being developed ?
5. explore, with the help soft skill expert, some aspects of the relationships between people that make working in research teams more effective ?

How effective was the school in achieving the following advertised goals:

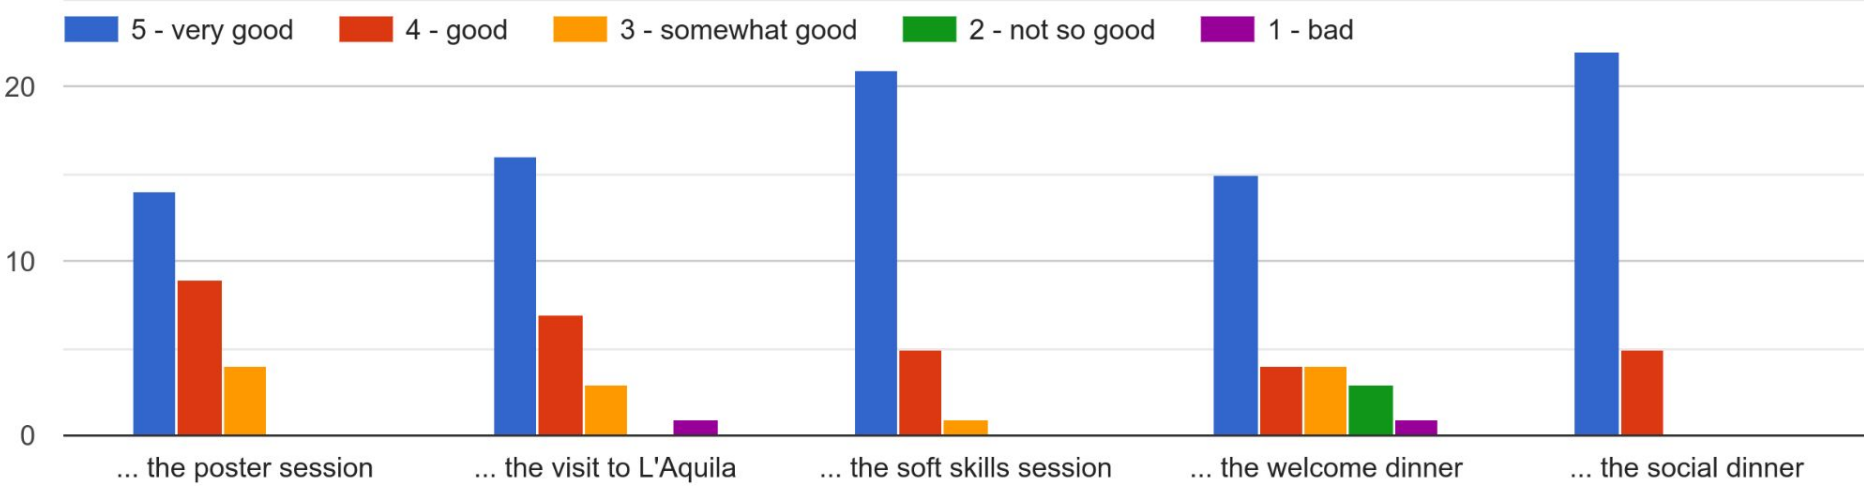

How useful was the retreat for your research work ?

35 risposte

How good was the idea to include in the retreat...

What aspects of the retreat did you enjoy most and why?

Mani clusters:

- possibility to meet other students and experts; spend time with them
- soft skill course
- visits

What aspects of the retreat did you enjoy least and why?

7 comment on the content of the talks

- main frequent comment: some talk were not interesting to me

2 poster session

- it should have better organized

4 dinners

- aspects to be improved (appropriate food for everybody)

Which speaker's presentation did you like the most ?

19 presentation mentioned

Nando Ferroni's one was the one with most indications

Which speaker's presentation did you like the least?

only a few indications

no evident “winner”

cases of talks indicated both as best and as worst...

Was something missing ? / Other comments

8: nothing missing

many interesting suggestions that we will look at carefully

e.g.:

- More educational presentations instead of informational ones
- Soft skill should have been the first day lecture because it would have helped us to attend the meet in different perspective.

What are your 3 most important values?

48 responses

Thank you for your very useful feedback !!
